

Phase 2: Innovation

In this phase you need to put your design into innovation to solve the problem.

Explain in detail the complete steps that will be taken by you to put your design that you thought of in previous phase into transformation.

Create a document around it and share the same for assessment.

NOTE:

File Naming Convention: **TechnologyName_Phase2**

After completion upload your file to your private GitHub account. Please give access to your faculty evaluators[**facultyevaluator@gmail.com**] and industry evaluator [**IndustryEvaluator@skillup.online**] to your private GitHub repository for evaluation process.
